This is to certify that the installer that is installing my On-Site Sewage Facility has complied with provisions of 30 TAC, Chapter 285, Section 285.39 titled OSSF Maintenance and Management Practices that states:

- (b) *“Owners shall have the treatment tank pumped on a regular basis in order to prevent sludge accumulation from spilling over to the next tank or the outlet device. Owners of treatment tanks shall engage only persons registered with the executive director to transport the treatment tank contents.”*
- (c) *“Owners shall not allow driveways, storage building, or other structures to be constructed over the treatment or disposal systems.”*
