2018 Tax Rate Calculation Worksheet hool Districts

Date: 08/09/2018 08:08 AM

Saltillo ISD

School District's Name School District's Address, City, State, ZIP Code Phone (area code and number) School District's Website Address

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the effective tax rate and rollback tax rate for the taxing unit.

This worksheet is for school districts only. Water districts as defined under Water Code Section 49.001(1) should use Comptroller Form 50-858 Water District Rollback Tax Rate Worksheet. All other taxing units should use Comptroller Form 50-856 Tax Rate Calculation, Taxing Units Other Than School Districts.

This worksheet is provided to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

The effective Tax Rate (No New Taxes) The effective tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same among taxes (no new taxes) in opinior to be same properties that are itsed in both years. When appeals at values increase, the effective tax rate should decrease. Effective Tax Rate Activity 1. 2017 total taxable value. Enter the amount of 2017 taxable value on the 2017 tax roll today. Include any adjustments since last year's certification; exclude one-third overappraisal corrections from these adjustments. This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2). 2. 2017 tax ceilings and Chapter 313 limitations. A. Enter 2017 total taxable value of homesteads with tax ceilings. These include the homesteads of homeowners age 65 or older or disabled. 3. Enter 2017 total taxable value of applicable Chapter 313 limitations when alculating effective maintenance and operations (M&O) taxes. Enter zero when calculating effective debt service taxes. (Use these numbers on the advice of your legal counsel.) C. Add A and B. 3. Preliminary 2017 adjusted taxable value. Subtract Line 2 from Line 1. 4. 2017 total adopted tax rate (School districts with an applicable Chapter 313 limitation agreement will do a two step process using the adopted M&O rate and debt rate separately). 5. 2017 taxable value lost because court appeals of ARB decisions reduced 2017 appraised value: A. Original 2017 ARB Values: B. 2017 values resulting from final court decisions: C. 2017 value loss. Subtract B from A.	should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.	****

STEP 2: Rollback Tax Rate

Most school districts calculate a rollback tax rate that is split into two separate rates:

- 1. Maintenance and Operations (M&O): School districts must use the lesser amount of the following methods to calculate the M&O rate:

 Four cents (\$0.04) PLUS current year's compression rate multiplied by \$1.50 (usually \$1) PLUS any additional cents approved by voters at a 2006 or subsequent
- Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 2. Debt: The debt tax rate includes the debt service necessary to pay the school district's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt services.

 Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 Current year's compression rate multiplied by six cents (usually four cents) PLUS effective M&O rate which includes school formula funding calculations.

 Current year's compression rate which includes the compres and other debt secured by property tax revenue.

In most cases the rollback tax rate exceeds the effective tax rate, but occasionally decreases in a school district's debt service will cause the effective tax rate to be higher than the

rollback tax rate. Rollback Tax Rate Activity	Amount/Rate
25. Maintenance and operations (M&O) tax rate. Enter \$1.50 OR the 2005 adopted	\$1.500000/\$100
M&O rate if voters approved a rate higher than \$1.50.	\$1.000050/\$100
26. Multiply line 25 times 0.6667	<u> </u>
27. 2018 rollback M&O rate. Use the lesser of the M&O rate as calculated in Tax Code Section 26.08(n)(2)(A) and (B).	\$1.040050/\$100
28. Total 2018 debt to be paid with property tax revenue.	
Debt means the interest and principal that will be paid on debts that:	
(1) Are paid by property taxes,	
(2) Are secured by property taxes,	
(3) Are scheduled for payment over a period longer than one year, and	
(4) Are not classified in the school district's budget as M&O expenses.	
A. Debt includes contractual payments to other school districts that have incurred debt on behalf of this school district, if those debts meet the four conditions above. Include only amounts that will be paid from property tax revenue. Do not include appraisal district budge	\$0
payments. Enter debt amount:	
B. Subtract unencumbered fund amount used to reduce total debt.	\$0
C. Subtract state aid received for paying principal and interest on debt for facilities through the existing debt allotment program and/or instructional facilities allotment program.	\$0
D. Adjust debt: Subtract B and C from A.	\$0
29. Certified 2017 excess debt collections. Enter the amount certified by the collector.	\$0
30. Adjusted 2018 debt. Subtract line 29 from line 28D.	\$0
31. Certified 2018 anticipated collection rate. Enter the rate certified by the collector. If	95.00%
the rate is 100 percent or greater, enter 100 percent.	
32. 2018 debt adjusted for collections. Divide line 30 by line 31.	\$0
33. 2018 total taxable value. Enter amount on line 18.	\$63,745,670
34. 2018 debt tax rate. Divide line 32 by line 33 and multiply by \$100.	\$0/\$100
35. 2018 rollback tax rate. Adds lines 27 and 34.	\$1.040050/\$100

STEP 3: Additional Rollback Protection for Pollution Control	
bool district may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This include allation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control district's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The self-assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control. This step should only that uses M&O funds to may for a facility, device or method for the control of air, water or land pollution.	and district must provide the tax
